

TUTORIAL

OTR

The Brokers Tab enables users to verify brokers before commencing work with them or during the course of their cooperation.

The search option can be done by MC number, and the result displays key information, such as:

- DOT and license status,
- associated companies,
- year-by-year history,
- contact information, and credit rating

The card header shows basic Broker's info

- Original - a broker needs the original document
- OTR Approved/OTR not Approved - a broker has been approved or not approved by OTR
- Less than 1 year - a broker has been registered for less than 1 year
- Warnings - assigned warnings from the warning list
- DNU - reason for DNU categories from the DNU list
